INDEPENDENT AUDITOR'S REPORT

Members of the Board of Directors
Lake Cities Municipal Utility Authority
City of Lake Dallas

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of Lake Cities Municipal Utility Authority (the Authority), as of and for the year ended August 31, 2016, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The Authority's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of Lake Cities Municipal Utility Authority, as of August 31, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion on pages 5-10 and the schedule of funding progress for the retiree health plan, schedule of change in net pension liability and related ratios, the schedule of employer pension contributions and notes to required supplementary information on pages 28-31 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Also, the budgetary comparison schedule-enterprise fund on pages 32-33 is required supplemental information by the Texas Commission on Environment Quality as published in the Water District Financial Management guide. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

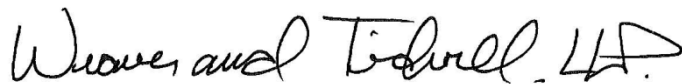

Other Information

Our audit was conducted for the purpose of forming an opinion on the basic financial statements of Lake Cities Municipal Utility Authority. The Texas Supplemental Information on pages 34-44 is required by the Texas Commission on Environmental Quality as published in the Water District Financial Management Guide. The Texas Supplemental Information is presented for purposes of additional analysis and is not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The Texas Supplemental Information (excluding the portion marked unaudited) for which we express no opinion, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 9, 2017, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lake City Municipal Utility Authority's internal control over financial reporting and compliance.

**LAKE CITIES MUNICIPAL UTILITY AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
FISCAL YEAR ENDED AUGUST 31, 2016**

As management of Lake Cities Municipal Utility Authority (the Authority), we offer readers of the Authority's financial statements this narrative overview and analysis of the financial activities of the Authority for the fiscal year ended August 31, 2016.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the Authority exceed its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$23,336,362 (Net Position). Of this amount, \$2,898,100 (unrestricted net position) may be used to meet the government's ongoing obligations to customers and creditors in accordance with the Authority's fiscal policies.
- The Authority's total net position increased by \$2,687,811. This increase is primarily the result of the Authority's operating revenues outpacing operating expenses resulting in \$402,708 of operating income and contributed capital of \$2,500,140.
- The Authority's total debt increased by \$1,270,000, primarily due to the issuance of \$1,500,000 of 2016 Revenue Notes payable. Total principal payments during the current year amounted to \$230,000.

OVERVIEW OF THE FINANCIAL STATEMENTS

Basic financial statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements are comprised of three statements: 1) Statement of Net Position which provide all of the Authority's assets, deferred outflows of resources, liabilities and deferred inflows of resources and provides information about the nature and amounts of investments in resources (assets) and obligations to creditors (liabilities); 2) Statement of Revenues, Expenses and Changes in Net Position shows the business-type activities of the Authority and provides information regarding revenues and expenses, both operating and non-operating, that affect the net position; and 3) Statement of Cash Flows. The primary purpose of this statement is to provide information about the Authority's cash receipts and cash payments during the period using the direct method of reporting cash flows from operating, investing, and capital and noncapital financing activities. The basic financial statements can be found on pages 11-13.

Notes to the financial statements

Integral to the financial statements are the notes to the basic financial statements. These notes provide additional information that is essential to a full understanding of the financial data provided in the basic financial statements. The Authority has prepared notes sufficient to provide the readers of these financial statements a clear picture of the Authority's financial position and insight into the results of its operations. These notes comply with the Texas Commission on Environmental Quality (TCEQ) standardized reporting requirements and are in conformity with accounting principles generally accepted in the United States of America (GAAP). The notes to the financial statements can be found on pages 14-27.

Other information

In addition to the basic financial statements and the accompanying notes, this section presents certain required and other supplementary information, much of which is required by TCEQ and GAAP, which may be beneficial to the reader.

The supplementary information can be found on pages 28-44 of the report.

FINANCIAL ANALYSIS OF THE AUTHORITY AS A WHOLE

Our analysis below focuses on the Authority's Net Position (Table 1) and Changes in Net Position (Table 2) during the fiscal year ended August 31, 2016.

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Lake Cities Municipal Utility Authority, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$23,336,362 as of August 31, 2016.

The largest portion of the Authority's net position (79%) reflects its investments in capital assets (e.g., land, building, equipment, improvements, construction in progress and infrastructure), less any debt used to acquire those assets that is still outstanding. The Authority uses these capital assets to provide services to customers; consequently, these assets are not available for future spending. Although the Authority's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the liabilities. An additional portion of the Authority's net position (8.5%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (\$2,898,100, or 12%) may be used to meet the Authority's ongoing obligations to customers and creditors.

FISCAL YEAR ENDED AUGUST 31, 2016**

Regarding restricted net position, \$1,451,659 represents Impact Fees restricted for capital improvements and \$522,156 represents the portion restricted for debt service. Unrestricted net position of \$2,898,100 may be used to meet the government's ongoing obligations to its customer and creditors.

As of August 31, 2016, the Authority is able to report positive balances in all categories of net position. The same situation held true for the prior fiscal year.

The current and other assets increased by \$630,356.

During the current year, the Authority's debt (its revenue bonds and notes) increased by \$1,270,000. Also included in long-term liabilities is the requirement to report an OPEB (Other Post-Employment Benefits) liability of \$959,781, which includes a \$90,141 increase.

The Authority's net position increased by \$2,687,811 during the current fiscal year. Net position invested in capital assets, net of related debt, increased by \$2,491,327. Unrestricted net position decreased by \$153,922 or 5%.

The following table provides a summary of the Authority's operations for the fiscal year ended August 31, 2016, with comparative totals for the fiscal year ended August 31, 2015.

THE AUTHORITY'S FUNDS

The Authority has one activity, the Enterprise Fund. Unrestricted net position of the proprietary fund, the Water and Sewer Fund, is \$2,898,100. This fund's net position increased in the fiscal year ended August 31, 2016 by \$2,687,811.

Proprietary Fund Budgetary Highlights – The Authority made no revision to the original appropriations approved by the Board of Directors. Also, the Authority made no changes to its overall budgeted revenue.

Actual operating revenues were (\$115,437) below the budgeted amounts, due in large part to the decrease in water usage by customers caused by wet weather.

Actual operating expenditures were (\$1,108,595) above the budgeted amounts, largely due to depreciation expense and salaries, benefits and payroll taxes.

The change in net position for the year was \$893,428 more favorable than the budget amount, due to a large increase in contributed capital.

Additional information on the comparison of the Authority's actual operations to its budget can be found in the Budgetary Comparison Schedule – Enterprise Fund beginning on page 32.

CAPITAL ASSETS

The Authority's capital assets for its business-type activities as of August 31, 2016 totaled to \$19,769,781 (net of accumulated depreciation). Capital assets includes land, building, equipment, improvements, infrastructure and construction in progress.

The Authority's capital assets increased approximately \$3,200,000 during the current year.

Major capital asset events during the current fiscal year included the following:

1. Approximately \$63,000 of new and replacement vehicles;
2. Approximately \$4,025,000 of new and replacement water and sewer infrastructure.

FISCAL YEAR ENDED AUGUST 31, 2016**

The Authority's revenue-supported debt was rated by Standard & Poor's Rating Services, A Division of the McGraw-Hill Companies, Inc in 2013 at AA-. Application for contract ratings on the Bonds has not been made to any of the rating companies since that initial rating. Furthermore, the Authority did not apply for municipal bond insurance.

Additional information on the Authority's long-term debt can be found beginning with Note 5 on page 20 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

In the 2016-2017 Budget, water and sewer revenues are budgeted to increase by approximately 14% from the 2015-2016 budget year. A rate study conducted during the 2012 fiscal year revealed a structure change in water and wastewater rates (including depreciation) was needed to continue building acceptable Working Capital and fund larger capital improvement projects over the next ten years. The Board of Directors passed a resolution at the August 15, 2016 meeting raising rates effective October 1, 2016 in order to fund those identified projects.

The Authority has made a concerted effort to limit appropriations to only those items that are truly necessary. Budgeted expenses include a small increase in salaries expense and in repairs and maintenance. A significant increase in supplies expense is attributable to a three year meter change out program starting in FY 2015-2016. Increases in the demand charge for water and for wastewater treatment from the provider resulted in comparable increases in those items of the Authority's expenses budget.

The Water and Sewer Fund is budgeted to operate next year with expenditures equal to revenues.

**LAKE CITIES MUNICIPAL UTILITY AUTHORITY
NOTES TO FINANCIAL STATEMENTS**

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

Lake Cities Municipal Utility Authority (LCMUA) was created under Article XVI, Section 59 of the Constitution of the State of Texas, by Acts 1963, 58th Legislature, Chapter 599, which provide that the Board of Directors shall be elected by the qualified voters of the Authority. It was organized to own and operate the Water and Sewer System and was empowered to levy taxes and charge for water and sewer services provided to citizens. The Authority was also validated and confirmed effective June 18, 1999 by House Bill No. 3804, Chapter 1137, 76th Legislature. This bill revised and restated the enabling statutes creating and establishing the Authority's power of eminent domain and its authority to levy an ad valorem tax and to issue bonds. Its enabling legislation was further amended by House Bill No. 2309, Section 1.26, 79th Legislature, which was signed into law on June 18, 2005, effective September 1, 2005. This law repealed Chapter 312, Acts of the 58th Legislature, Regular Session, 1963 and provided that each director is to be elected at large to one of five numbered places by the qualified voters residing within the boundaries of the Authority. Further amended by House Bill No. 4176 of the 84th Legislative Session, signed into law June 18, 2015 taking effect September 1, 2015. This law amended Section 1.3 regarding the territorial boundaries of LCMUA to include all municipal boundaries and extraterritorial jurisdictions of the City of Lake Dallas, the Town of Shady Shores, and the Town of Hickory Creek. Section 2.6 was amended to provide for a director seat for each of the representative municipalities and two at large directors.

Measurement Focus

The accompanying basic financial statements are reported using the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. The Authority's operating revenues are derived from charges to users, primarily for the transportation and sale of water and wastewater. The Authority constructs facilities to provide services to others, which are financed in part by the issuance of its revenue bonds and notes.

Basis of Presentation

The Authority presents its financial statements in accordance with GASB Statement 34 guidance for governments engaged in business-type activities. Accordingly, the basic financial statements and Required Supplementary Information (RSI) of the Authority consist of MD&A, Statement of Net Position, Statement of Revenues, Expenses and Changes in Net Position, Statement of Cash Flows, Notes to Financial Statements, Schedule of Funding Progress for the Retiree Health Plan, Schedule of Changes in Net Pension Liability and Related Ratios and the Schedule of Employer Pension Contributions. Additionally, the Authority complies with the reporting requirements promulgated by the "Water District Financial Management Guide" published by the Texas Commission on Environmental Quality.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Revenues

Revenues are recognized as earned and generally result from providing water and sewer services to customers. Revenues resulting from other transactions are reported as non-operating revenues.

Expenses

Direct charges attributable to the operations of the Authority's water and sewer systems, including depreciation and amortization, are reported as operating expenses. Interest expense and other similar charges not directly related to the systems' operations are reported as non-operating expenses. Restricted resources, if any, are used first to fund related appropriations, before unrestricted resources are used.

Cash Equivalents

All highly liquid investments (including restricted assets) with original maturities of three months or less when purchased are considered to be cash equivalents.

Deposits

At August 31, 2016, the bank balance of the Authority's cash deposits totaled \$2,741,040, and the carrying value was \$2,454,979. These amounts exclude the restricted cash amount held in escrow which totaled \$4,312,329 at August 31, 2016. The Authority has obtained a pledge of securities in the amount of \$300,000 from a financial institution in order to mitigate credit and custodial risks associated with deposits. However, this amount plus the bank depository insurance limits were insufficient to fully collateralize the Authority's deposits. The Authority has not experienced any loss as a result of this custodial risk.

Accounts Receivable

Accounts receivable consists primarily of receivables related to water and sewer services. Accounts receivable includes an accrual for unbilled revenue earned during the month of August 2016. The unbilled revenue balance as of August 31, 2016 was \$307,434.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Allowances for Doubtful Accounts

Trade accounts receivable are evaluated periodically for collectability based on customer history and current economic conditions. When considered necessary, an allowance is made for doubtful accounts.

Inventories

All inventories are valued at cost using the first-in/first-out (FIFO) methodology.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results could differ from those estimates.

Capital Assets

All purchased capital assets are stated at historical cost unless they are determined to be impaired based on GASB Statement No. 42, Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries. Donated assets are stated at their estimated fair values on the date donated.

Repairs and maintenance are recorded as expenses; renewals and betterments are capitalized.

According to the Authority's capitalization policy, assets capitalized have an original cost of \$5,000 or more and two or more years of estimated useful life. Depreciation is calculated on each class of depreciable property using the straight-line method. Estimated useful lives range from 5 to 40 years for buildings and water and sewer equipment, 5 to 20 years for machinery and equipment, and 10 to 40 years for engineering fees and purchased computer software.

Compensated Absences

Employees are allowed to accumulate vacation within certain limitations. Payment for accrued vacation (within limits) upon termination is subject to the employee leaving in good standing. Payment for accrued sick leave (within limits) is paid upon retirement. At August 31, 2016, a liability of _____ for unused vacation leave has been accrued and is included in current liabilities within salaries and benefits payable.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Minimum Unrestricted Net Position

The Authority’s goal is to achieve and maintain unrestricted net position balance in the enterprise fund equal to 25% of annual expenses. In the event that the unrestricted net position balance is calculated to be less than the policy stipulates, the Authority shall plan to adjust budget resources in subsequent fiscal years to restore the balance.

Subsequent Events

The Authority has evaluated all events or transactions that occurred after August 31, 2016, through January 9, 2017, the date the financial statements were available to be issued. During this period there were no subsequent events requiring recognition or disclosure.

NOTE 2. CASH AND INVESTMENTS

Legal provisions generally permit the Authority to invest in direct and indirect obligations of the United States of America or its agencies, certain certificates of deposit, repurchase agreements, public funds investment pools and mutual funds. During the year ended August 31, 2016, the Authority did not own any types of securities other than those permitted by statute.

The following is a summary of cash and investments at August 31, 2016:

	<u>Credit Quality Ratings</u>	<u>Fair Value</u>	<u>Weighted Average Maturity</u>

NOTE 2. CASH AND INVESTMENTS – CONTINUED

The following is a summary of cash restrictions as of August 31, 2016:

<u>Restricted Cash and Investments</u>	
Restricted for customer deposits	\$ 176,055
Restricted for impact fees	1,451,659
Restricted for capital projects	6,131,408
Restricted for debt service	<u>522,156</u>
Total restricted cash and equivalents	<u>\$ 8,281,278</u>

In compliance with the Authority's investment policy, the Authority limits exposure to credit risk and interest rate risk by limiting the effective duration of securities to less than twelve months and limiting investments to high quality rated securities. The Authority limits exposure to custodial credit risk through a pledge of securities obtained from a financial institution.

The Authority invests in TexPool. The State Comptroller of Public Accounts exercises oversight responsibility over TexPool, the Texas Local Government Investment Pool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both Participants in TexPool and other persons who do not have a business relationship with TexPool. The Advisory Board members review the investment policy and management fee structure. Finally, TexPool is rated AAAM by Standard and Poor's. As a requirement to maintain the rating, weekly portfolio information must be submitted to Standard and Poor's, as well as the office of the Comptroller for public review.

TexPool operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. TexPool uses amortized cost rather than market value to report net position to compute share prices. Accordingly, the fair value of the position in TexPool is the same as the value of TexPool shares.

The Authority also invests in LOGIC Investments. LOGIC is administered by FirstSouthwest and JPMorgan Chase. Together, these organizations bring to the LOGIC program the powerful partnership of two leaders in financial services with a proven track record in local government investment pool management and extensive industry resources. LOGIC is a local government investment cooperative created under the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and operates under the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. Finally, LOGIC is an AAA rated local government investment pool created by Texas local government officials who understand the specific needs and challenges of investing public funds.

Investment pools are measured at amortized cost and are exempt for fair value reporting under GASB Statement No. 72.

NOTE 6. RETIREMENT PLANS

The Authority provides retirement, disability, and death benefits for all of its full-time employees through a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System (TCDRS). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of 701 nontraditional defined benefit pension plans. TCDRS in the aggregate issues a comprehensive annual financial report (CAFR) on a calendar year basis. The CAFR is available upon written request from the TCDRS Board of Trustees at P.O. Box 2034, Austin, Texas 78768-2034.

The plan provisions are adopted by the governing body of the employer, within the options available in the Texas state statutes governing TCDRS (TCDRS Act). Members can retire at ages 60 and above with 10 or more years of service, with 30 years of service regardless of age, or when the sum of their age and years of service equals 80 or more. Members are vested after 10 years of service but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Contributions. The employer has elected the annually determined contribution rate (ADCR) plan provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the employer is actuarially determined annually. The employer contributed using the actuarially determined rate of 9.05% for the 2015 plan year.

The contribution rate payable by the employee members for calendar years 2015 and 2016 is the rate of 7.00% as adopted by the governing body of the employer. The employee contribution rate and the employer contribution rate may be changed by the governing body of the employer within the options available in the TCDRS Act.

Actuarial Assumptions

The total pension liability in the December 31, 2015 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	December 31, 2015
Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	
Smoothing period	5 Years
Recognition method	Non-asymptotic
Corridor	None
Inflation	3.00%
Salary Increase	4.90%
Investment Rate of Return	8.10%
Payroll Growth	2.00%

Discount Rate

The discount rate used to measure the total pension liability was 8.10%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8.10%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

NOTE 6. RETIREMENT PLANS – CONTINUED

The Company also sponsors a 457(b) plan, the LCMUA Employees' Pension Plan (the Plan), whereby retirement benefits are provided to eligible full-time employees in lieu of Social Security. Under the Plan, LCMUA will match one-to-one the amount equal to .65% of the employee's salary. Employees are permitted to contribute between 1% of the employees' compensation up to the maximum of 12%.

NOTE 7. OTHER POSTEMPLOYMENT BENEFITS

Plan Description

LCMUA participates in the TML Multistate Intergovernmental Employee Benefits Pool (TML-MEBP) Retiree Reimbursement Arrangement. Employees hired before April 1, 2016, with at least ten years of service and meeting the retirement eligibility requirements set forth in E.5.1 may opt to participate in the Retiree Reimbursement Arrangement, under which LCMUA will fund an account for reimbursement of eligible health care expenses for the retiree in the amounts provided for annually in LCMUA's fiscal year budget for retirees within the following classifications:

- a. Retirees with ten years of service, but less than 15 years of service;
- b. Retirees with fifteen years of service, but less than 20 years of service; and
- c. Retirees with twenty years of service or more.

The Summary Plan Description set forth by TML-MEBP controls the terms of the plan. The LCMUA retiree to receive benefits under the Retiree Reimbursement Arrangement must opt into the plan within 30 days of the employee's retirement date. LCMUA reserves the right to modify, revoke, suspend, terminate, or change the program, in whole or in part, at any time. The Plan does not have a separately issued GAAP-basis postemployment benefit plan report available for the current reporting period.

At August 31, 2016, the Plan had 23 total participants and met the requirements to use the alternative measurement method and elected to do so.

Funding Policy

The Authority's funding policy is established and may be amended by the Authority's Board of Directors. The Authority is not required to establish an irrevocable trust fund to accumulate assets for payment of future OPEB benefits and has elected not to do so as of August 31, 2016. Currently, payments of OPEB benefits are made on a pay-as-you-go basis in amounts necessary to provide current benefits to the recipients.

NOTE 7. OTHER POSTEMPLOYMENT BENEFITS – CONTINUED

Annual OPEB Cost and Net OPEB Obligation

The Authority's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the alternative measurement method provisions of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years on an open basis. The Authority's annual OPEB cost and net OPEB obligation for August 31, 2016 and 2015 is shown below:

	2016	2015
Annual required contribution	\$ 105,362	\$ 206,953
Annual OPEB cost	105,362	206,953
Contributions made	(15,221)	(13,908)
Increase in net OPEB obligation	90,141	193,045
Net OPEB obligation - beginning of year	869,640	676,595
Net OPEB obligation - end of year	\$ 959,781	\$ 869,640
Percentage of Annual OPEB Cost Contributed	14%	7%

Funded Status and Funding Progress

The funded status of other postemployment benefits as of August 31, 2015, the date of the latest actuarial valuation, was as follows:

Actuarial Accrued liability (AAL)	\$ 496,925
Value of plan assets	-
Unfunded actuarial accrued liability	\$ 496,925
Funded ratio (value of plan asset/AAL)	0.0%

Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The unfunded actuarial accrued liability is being amortized assuming 30 level annual payments on an open basis.

NOTES TO THE BUDGETARY COMPARISON SCHEDULE – ENTERPRISE FUND
FOR THE YEAR ENDED AUGUST 31, 2016**

The Authority adopts an accrual basis budget for the enterprise fund annually. Included in the Authority's budget are certain expenditures such as capital expenditures and principal payments on long term debt. The budget is prepared by management and approved by the Board of Directors at the August meeting. The adopted budget is not a spending limitation under the law but rather a tool used in controlling and administering the management and operation of the Authority.
